

PB9898 & DP1198

- You are still troubled how to build a recoiler?
- You are still worried how to make holes on a glass cabinet?

BP9898 gives you easier display solution:

no need to drill any hole, no pre-mounting - save 80% mounting cost immediately!

Recoiler + magnetic holder = Integrated patented design.

Tear drop shape. Streamlined design. Smaller size. No matter wall / table surface mounting, glass / metal material, just mount and use it!

Advantages:

Patented design: combine recoiler & magnetic holder (as an integrated product)

Streamlined outlooking: tear drop shaped - smaller & nicer.

Complete function:

- 1) Recoiler function.
- 2) Spring wire function.
- 3) Alarm function.
- 4) Charging function for mobile phone.
- 5) Double protection

- Please select the required functions when placing order.

Easy mounting:

- pre-mounting? - no need
- professional builders? - no need.

No matter wall surface / table top, wooden / glass / metal display counter, just mount and use it. Easy to make changes as well.
